HOT SLICE™

The **HOT SLICE™** from AMTI Products is a thermal cutting system that precisely cuts and cures sleeving, strap, webbing, and similar materials in one seamless motion. With adjustable blade heat control, it delivers consistent, fray-free edges while eliminating manual hot knife labor.

Applications

- Flexible sleeving
- Various strapping materials
- Webbing and flat cord
- Textile wrap, lacing, and tie-downs

Performance Advantages

- Cuts and cures in one seamless motion
- Eliminates post-cut sealing steps
- Delivers smooth, consistent edges
- Control dial fine-tunes blade heat for different materials
- Fast cycle speeds with repeatable precision
- Designed to reduce labor and operator fatigue
- Backed by AMTI's 2-Year Warranty & US-based support
