SLICE™ 123

Compact. All Electric. Built for precision.

The **SLICE™ 123** is AMTI Products' most compact and cost-effective, all electric cutting system - engineered for precision processing of sleeving, tubing, wire, and small-gauge cable. With an opening of 0.25" x 3" and no air required, it's ideal for teams looking to automate without overcomplicating.

Applications

- Heat shrink tubing (thin wall)
- Textile sleeving
- Vinyl Hose
- Flat ribbon cable
- Small-gauge wire

Performance Advantages

- Fully programmable with up to 99 jobs
- Compact size for tight benchtop spaces
- Plug-and-play: no compressed air required
- Guillotine-style blade delivers clean, consistent cuts
- Adjustable speed with fast feed rate (up to 30"/sec)
- Batch programming and pause for high-volume runs
- Designed and built in the USA — backed by real support
- Industry-leading 2 year warranty
