SLICE™ 135

Reliable. Versatile. Production-Proven.

The **SLICE™ 135** is a rugged, pneumatic cutting system designed for high-throughput processing of sleeving, tubing, wire, and more. With a programmable interface, adjustable speed, and multiple optional accessories, it's a go-to choice for manufacturers looking for repeatable results with zero hassle.

Applications

- Wire up to 10 gauge
- Braided sleeving
- Flat ribbon cable
- Heat shrink tubing (thin wall)
- Low-profile textile materials

Performance Advantages

- Guillotine blade delivers crisp, accurate cuts
- Speeds up to 30"/sec for efficient processing
- Opening of 0.25" x 3" for versatile use
- Fully Pneumatic (80 psi) for reliable performance
- Compatible with Multi-CUT system and Throat Guide
- Stainless steel feed wheels available
- Programmable with up to 99 jobs
- Built in the USA and backed by AMTI's 2-Year Warranty
