# SLICE™ 141

*Work-Horse. Versatile. User-Friendly.*

The **SLICE™ 141** is a programmable, pneumatic cutting system built for more complex jobs — with an adjustable opening height up to 1.5", safety guards, and robust architecture, it's ideal for teams who require more flexibility across varying materials, sizes, and specs.

## Applications

- Loom tubing (Diameters up to 1.5")
- Heat shrink tubing (all types)
- Textile-based wrap and strapping
- Braided sleeving and flat cable
- Flexible hose and jacketed wire

## Performance Advantages

- Adjustable opening accommodates materials up to 1.5" in diameter
- Enhanced safety guarding at both entry and exit
- Adjustable speed for optimal throughput (up to 30"/sec)
- Consistent guillotine cuts with pneumatic force
- Built-in metric/inch conversion and tight cut tolerance
- Fully programmable with 99 job slots, batch/pause controls
- Backed by AMTI's 2-Year Warranty and in-house support

**SLICE™ Series**
